

COLORADO
UTILITY FINDERS

CAPABILITY STATEMENT

NAICS: 561990, 238910, 237310

SAMS: UMHEW1B4DVD1

DUNS: 109842270

CAGE/NCAGE: 98WX6

Who We Are

Colorado Utility Finders has 21 years of experience working throughout Colorado and surrounding states for general construction and design work. Our primary focus is hydro-excavation (potholing) of underground utilities to enable accurate design and mitigate damages during construction. Colorado Utility Finders has averaged 15% year over year growth for the past eight years due to our excellent customer service, a focus on accuracy and always ensuring that safety comes first. Colorado Utility Finders has worked on many large and small projects through the Front Range and surrounding areas as represented in our recent project list, below.

What Make Us Different

- We provide non-destructive excavation using water and vacuum suction to clear dirt and expose underground utilities prior to digging. This innovative technology eliminates the uncertainty and risk of damaging utilities in sensitive and difficult to reach areas.
- Our crews are trained and equipped to use electromagnetic locating equipment to ensure increased efficiency success in finding utilities. Our crews are trained and equipped to core through concrete and asphalt and bring backfill for holes upon request at no additional cost.

Core Competencies

- *Hydro Excavation*
- *Utility Locating*
- *Potholing/Trenching*
- *Underground Visual Identification*
- *Material removal*

Certifications

- *Service Disabled Veteran Owned Business (SDVOSB)*
- *CDOT Small Business Enterprise (SBE)*
- *CCD Emerging Business Enterprise (EBE)*

Recent Project List

- **Loveland 4th St | Loveland, CO | Zak Dirt | 2025-2026 | \$19,900**
Revitalization and reconstruction of key downtown shopping area as part of Heart Improvement Plan.
- **Amazon Fulfillment Center | Loveland, CO | Fiore & Sons | 2023-2025 | \$91,000**
Site development and intersection/road improvements around Loveland distribution center.
- **I-25 NB Express Lanes | Fort Collins, CO | Kraemer|IHC Scott JV | 2020-2023 | \$172,500**
Adding new express lanes to increase capacity in both directions of I-25 from Johnston to Fort Collins.
- **S Boulder Road | Lafayette, CO | Castle Rock Construction Company | 2020-2023 | \$96,800**
Widening of S Boulder Road and 120th St including improvements to drainage and intersection.
- **Harvest Ridge | Aurora, CO | IHC Scott | 2021-2022 | \$38,500**
Widening of Jewell Rd and dirt work for a new residential development.
- **ADA Ramp Replacements | Denver, CO | Jalisco International | 2020-2021 | \$56,700**
Removing and/or installing ADA-compliant access ramps along various areas in downtown Denver.
