NAICS: 561990, 238910, 237310

SAMS: UMHEW1B4DVD1

DUNS: 109842270

CAGE/NCAGE: 98WX6

Who We Are

Colorado Utility Finders has 21 years of experience working throughout Colorado and surrounding states for design and general construction work. Our primary focus is hydro-excavation (potholing) of underground utilities to enable accurate design and mitigate damages during construction. Colorado Utility Finders has averaged 15% year over year growth for the past eight years due to our excellent customer service, a focus on accuracy and always ensuring that safety comes first. Colorado Utility Finders has worked on many large and small projects through the Front Range and surrounding areas as represented in our recent project list, below.

What Makes Us Different

- We provide non-destructive excavation using water and vacuum suction to clear dirt and expose underground utilities prior to digging. This innovative technology eliminates the uncertainty and risk of damaging utilities in sensitive and difficult to reach areas.
- Our team handles everything from permitting through restoration. Our crews are trained and equipped to use electromagnetic locating equipment to ensure increased efficiency success in finding utilities. We provide electronic data tables and field markings to help deliver Quality Level A SUE plans.

Core Competencies

- *Hydro Excavation*
- *Project Management*
- *Utility Locating*
- *Potholing/Trenching*
- *Underground Visual Identification*

Certifications

- *Service Disabled Veteran Owned Business (SDVOSB)*
- *CDOT Small Business Enterprise (SBE)*
- *CCD Emerging Business Enterprise (EBE)*

Recent Project List

- **FCLWD Waterline Replacement | Fort Collins, CO | AVI-HDR | 2022-2026 | \$219,000**
Design for multiple segments of a new waterline through NW Fort Collins.
- **Century Link Fiber Installation | Various Municipalities, CO | ATH | 2024-2026 | \$407,000**
Design for Century Link fiber installation in various neighborhoods along front range municipalities.
- **Arneson Sub-Zone Water Line Replacement | Erie, CO | Dewberry | 2025-2026 | \$39,600**
Design for LHWD water line replacement along WCR-6 and WCR-7.
- **RidgeGate Parkway Corridor Development | Lone Tree, CO | Merrick | 2025-26 | \$32,100**
Design for street and storm sewer improvements along RidgeGate Parkway and S Havana Street.
- **Cowan and Smith Alley Wastewater Replacement | Fort Collins, CO | Jacobs Engineering | 2025 | \$62,720**
Design for replacement of sanitary sewer infrastructure along two alleys.
- **NEWT3 Waterline | Larimer County, CO | Providence Infrastructure | 2022-2023 | \$46,400**
Design for third phase of new NWCWD and ELCO transmission waterline traversing Fort Collins.
